

"Have you eaten?"
(Sudah makan?)

This is the more common social greeting in Malaysia, as well as many other parts of Asia, when family, friends and even strangers meet. Food is our passion and eating is our favorite past time. It tells the tales of our heritage and culture as well as our way of showing our hospitality.

In Malaysia, meals are often eaten family style. So, we encourage you to do the same with our menu; order a few different things and share them among your dining companions.

And by the way, 'Makan' means 'Eat' in Malay.
